Course Outline

Shall we preserve the old things, and why? What is “cultural heritage”? Using examples in different parts of the world, this course aims to give students a concise and critical understanding on heritage conservation from an anthropological perspective. The course will introduce basic concepts and cultural contexts of the occurrence and development of cultural heritage conservation in the world, and discuss important issues in this field, including the economic, social and political meanings of heritage in contemporary societies, the impetus of preserving heritage, climate change impact on heritage, the use of heritage as a social and political implement by the state, scholars, and different communities for their own interests. The course will also discuss problems and challenges in this area.

No prior knowledge on heritage preservation is required for this course.

Major contents of this course

Why are human beings interested in their past? Is heritage “invented”?

The origin and development of heritage conservation will be explored and discussed.

Debates on heritage preservation and management:

1. Who needs cultural heritage? Is heritage conservation a social elite business?
2. Who owns the cultural heritage, and who has the right to decide what should be preserved, and how to preserve it?
3. International principles and local cultures, globalization and localization: the preservation of cultural heritage in different political, economic and social contexts/ countries—should there be “universal principles and philosophy” for heritage conservation? Is there a so-called “best practice”? Who has the right to decide what is “the best practice”?
4. How climate change relates to cultural heritage?
5. The use and abuse of cultural heritage. Issues about documentary heritage, the dynamics between tangible, intangible and digital heritage.
6. The future of human beings’ past: can heritage be preserved at all? The relationship between heritage, society and individuals

Learning outcomes

After taking this course, students are expected to:

1. Understand the basic concepts, principles and approaches of managing cultural

heritage.

2. Learn to appreciate cultural heritage created by human beings, and to respect different cultures.
3. Understand the economic, social and political issues of heritage preservation and management in contemporary societies.
4. Use inter-disciplinary approaches and critical thinking in discussing heritage issues.

Learning activities

2-hour lectures and 1-hour tutorial per week for one semester, site visit and field trip in Hong Kong.

Course assessment:

1. Participation and discussion in the tutorials (20%)
2. Mid-term report (30%)

Student should submit no more than 3 pages individual report on a study of selected cultural heritage site (Due date: 30th October, Monday, 5pm)

3. Final paper (50%)

Student will be required to write not more than 2500 words individual paper on a study of selected topic(s) from lecture(s) (Due date: 4th December, Monday, 5pm)

Grade descriptors are as follows for the assessment of this course:

Grade Overall course

- A Outstanding performance on all learning outcomes.
- A- Generally outstanding performance on all (or almost all) learning outcomes.
- B Substantial performance on all learning outcomes, OR high performance on some learning outcomes which compensates for less satisfactory performance on others, resulting in overall substantial performance.
- C Satisfactory performance on the majority of learning outcomes, possibly with a few weaknesses.
- D Barely satisfactory performance on a number of learning outcomes
- F Unsatisfactory performance on a number of learning outcomes, OR failure to meet specified assessment requirements.

Medium of instruction

Submissions & academic honesty

As required by the university, from Sept. 2008, students must submit a soft copy of their computer-generated text assignments to VeriGuide at a specified URL. The system will issue a receipt containing a declaration of honesty statement. Students should sign the receipt, print a hard copy of their assignment, and submit the hard copy and the receipt to teachers for grading. The university says that assignments without the receipt will NOT be graded.

Please check the website "Honesty in Academic Work" at:
